King Solomon

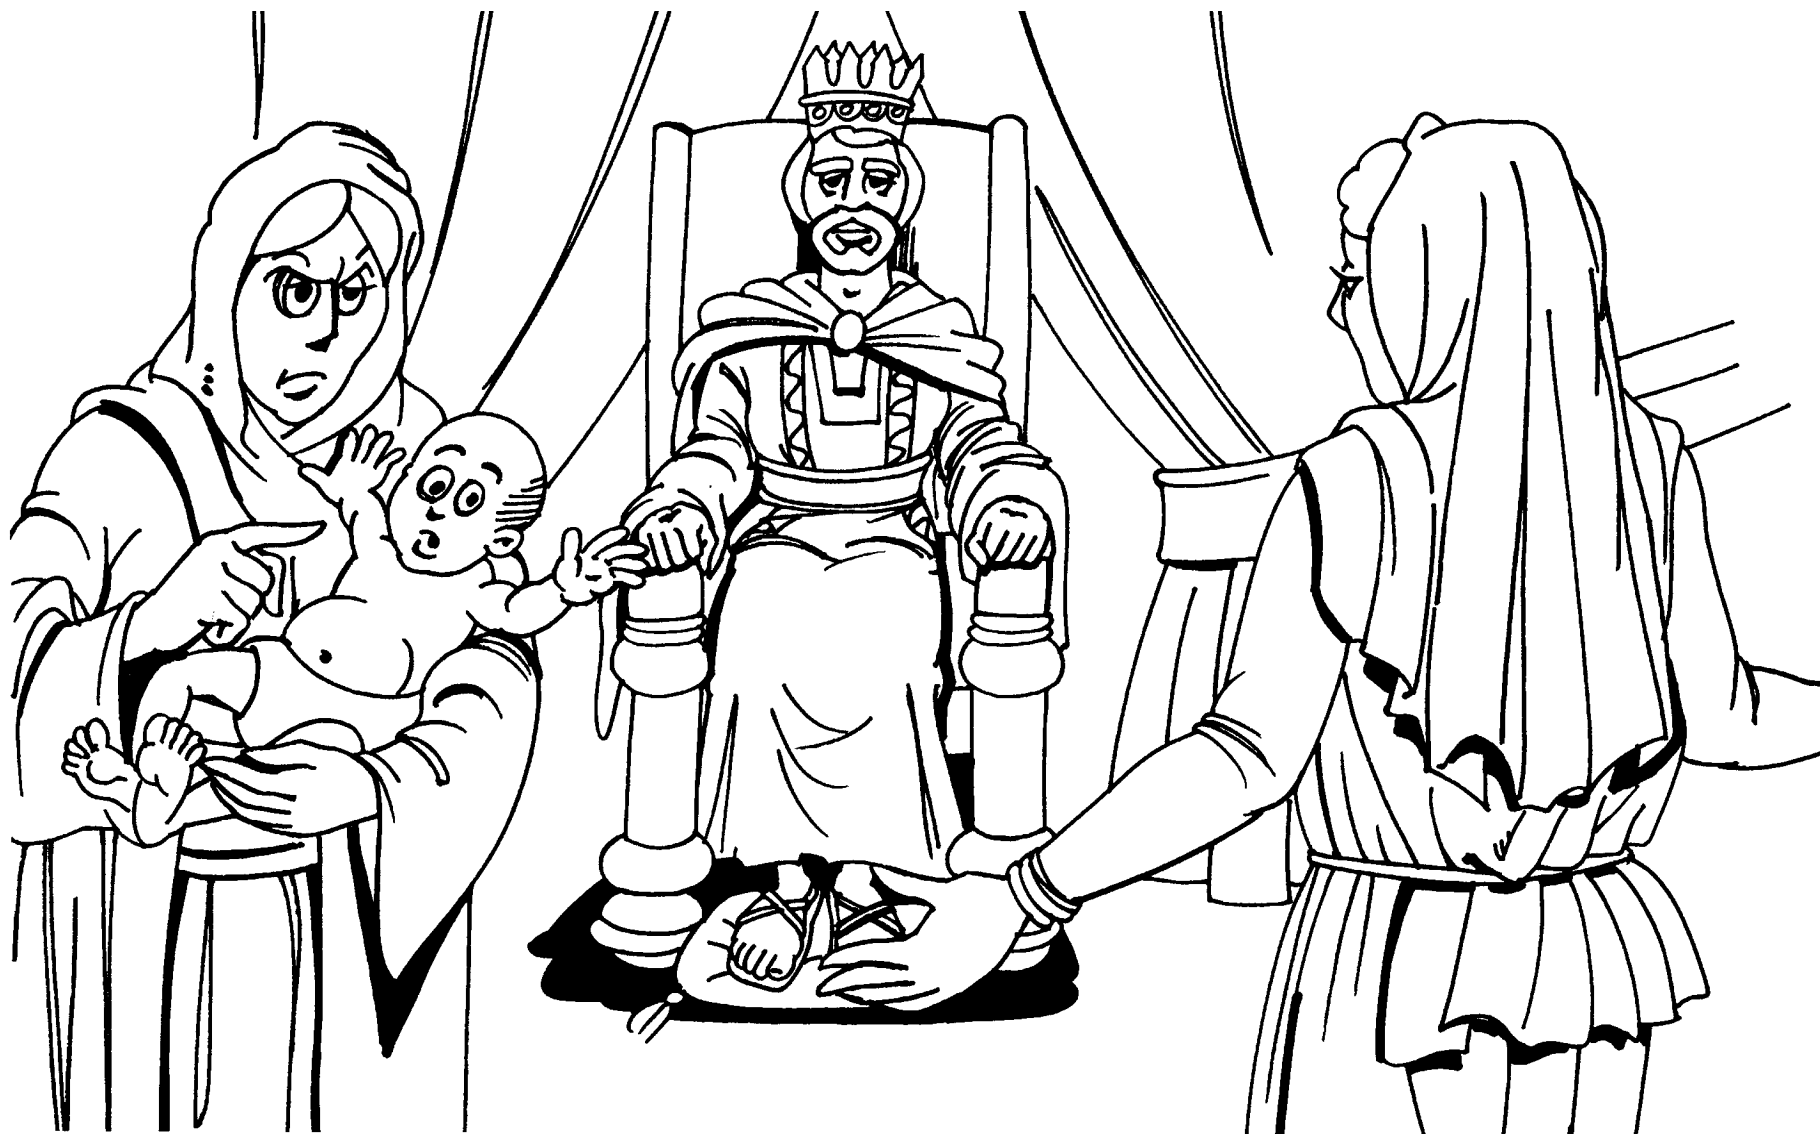

When King David died, his son Solomon became the third king of Israel. God appeared to Solomon in a dream and asked him what he wanted God to give him. He asked God to help him understand what was right and what was wrong. God was pleased with his answer and made Solomon the wisest man in the whole world.

King Solomon 2:14

There were two women at Jerusalem who went to see the king with a big problem. Each woman had a baby, but one night the one woman's baby died. The mother of the dead baby very quietly changed her dead child for the others woman's baby.

King Solomon 3/4

The woman whose child was stolen told the king that when she wanted to feed her baby she found that it was dead. She then saw that the dead baby was not her child. King Solomon had to find out who the real mother of the living baby was.

King Solomon 414

King Solomon then did a very strange thing. He told a soldier to cut the living baby in half so that each woman could have some of the baby. The real mother pleaded for the king not to hurt the baby but give it to the other woman. The other woman told the king to cut it in half. Now who do think was the real mother? With Godly wisdom the answer is easy. Solomon gave the baby to the woman who was prepared to give the baby away to save its life.
